Red Sand Project is a way for people to come together and connect, raising awareness about human trafficking. This participatory art installation includes pouring red sand into the cracks in the sidewalk throughout the center of campus. All students are welcome to take part in the installation, to help raise awareness for the over 40 million people affected by modern-day slavery worldwide. Students are also encouraged to photograph the event and share to social media, using **#RedSandProject**.

Sponsored by the Department of History and Government and the Office of Service-Learning, in cooperation with Dr. Jennifer Black and the students in HIS 431 (Fall 2021): Alyssa Cheseck, Patrick Ciccarino, Justin Moreno, Phil Pisano, Averil Rine, Tavion Rogers, Chase Shustack, Larry Territo, Nora Tracey, Jude Unitis, and Connor Wallace.
